

North Star Montessori Academy fosters a Montessori environment allowing the whole child the freedom and support to question, think deeply, and make connections. Our Montessori environment yields confident, motivated, and self-directed learners able to think critically, work collaboratively, and become respectful citizens in an ever-changing world.

What do you want for your child?

- Do you want your child's innate curiosity, imagination, and naturally inventive and exploratory instincts to bloom and flourish at his/her own pace?
- Do you want an environment that acknowledges the differences in your child's personality and rate of learning?
- Do you want your child in a nurturing, child-centered community based on mutual respect, empowerment, and self-reliance?
- Do you want your child to develop a relationship with his/her teacher that is collaborative, strong, and long-term?

If so, then you will want to consider North Star Montessori Academy.

What is Montessori Education at North Star Montessori Academy?

The Montessori method of education was developed by Dr. Maria Montessori. It is a child-centered educational approach where children are offered opportunities to reach their highest potential. Montessori believed that children's growth, development, and learning happens in waves, or planes of development. Throughout each plane, students have different needs, sensitivities, strengths and needs to be independent learners. Our Montessori teachers prepare each classroom environment to support and appeal to students within each developmental plane.

To apply, please visit our website at northstaracademymqt.com or use the links below. If you have any questions, please email Angela Chang, Principal at achang@nsacd.com
